

Dear Rehabilitation Client,

Your veterinarian has referred your pet to the Essex Animal Hospital for a Rehabilitation Consult and or Therapy. This referral is a direct extension of your veterinarian's primary health care for your pet. A team approach assures that your pet receives optimal care. It is our goal to provide state of the art physical therapy to speed your pet's recovery and improve his or her quality of life.

Your veterinarian will receive periodic updates on your pet's progress through rehabilitation.

For all services other than rehabilitation, we will refer your pet back to your primary veterinarian.

Thank you for entrusting the care of your precious family member to our team.

Sincerely,

Dr. Janice Huntingford
